

QUICK LAUNCH TOOLBAR (Windows XP):

To Display the Quick Launch Toolbar if it is not visible carry out the following steps:

Click the Right Mouse button whilst pointing to the 'Taskbar' (the Blue Bar) at the bottom of the screen

A box will appear
(If there is a tick beside the *Lock the Taskbar* click on the item to remove the tick)

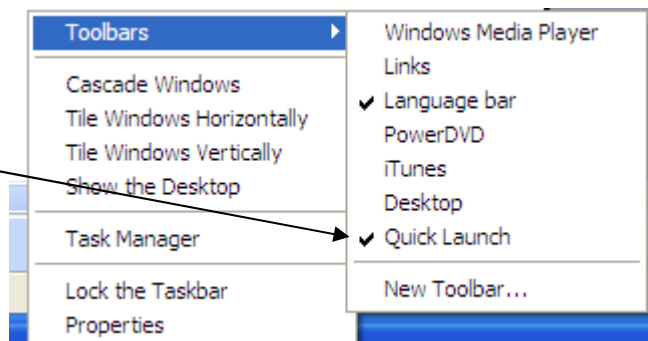

The box will disappear

Right click on the Taskbar again to display the box

Now press the Toolbars item and

Another box will appear – press the left mouse button whilst pointing to the Quick Launch item and this be ticked and the Toolbar will appear beside the START button

The boxes will again disappear

TO ENLARGE THE ICON IN THE TOOLBAR:

To enlarge the ICONS in the Quick Launch Toolbar located near the START button

Right click whilst pointing to the Quick Launch Taskbar to display a different box
(The cursor must be pointing at just the blue area and not at an Icon.)

The Default is for Small Icons as ticked now click the Left mouse button on the Large Icons – the box will disappear and the Icons will be larger.
