

## Optelec Clearview+ Colour

**£1895.00**

### **Description**

Reading and writing is now much easier with a **ClearView+ Colour** video magnifier. Magnify and display paper documents and objects at a more comfortable size in full colour on the built-in screen.

Control buttons are located centrally on the movable reading table for comfortable operation, whilst the monitor can be adjusted to provide a more comfortable viewing angle.

### **Key benefits**

- Wide magnification range for easier reading (2.6 to 50 times magnification)
- Simple one-button control at your fingertips
- Auto-focus
- Easy-glide, ultra-low reading table
- Fix the reading table position at the press of a button
- View images and paper documents in full colour
- Read using high contrast text modes:
  - Positive mode - black-text-on-white
  - Reverse mode - white-text-on-black
- Upgradeable design - add extra features after purchase

ClearView+ Colour
