

Optelec CleaReader

£1695.00

General Information

Scan and listen to printed documents using CleaReader - an Audio Text Reader

Now with buttons to control the speech speed rate!

Open up your world and have your documents read out aloud with the new Tieman CleaReader - an easy-to-use reading machine designed for the benefit of visually impaired people.

CleaReader comes with an adjustable cover so that you can scan and read thick books. Also, it can be used to store documents using the built-in memory system. You can store at least 200,000 A4 pages!

Learning to operate CleaReader is easy using the Keyboard Trainer. Different shaped buttons are easy to recognise and there are no complicated button combinations. Simply press the round button to scan and read, and use the triangle button to start or stop reading. It's as simple as that!

CleaReader delivers high quality sound through its built-in speakers. even when it is used

at high volume. Also, there is a headphone connection at the front should you wish to listen to it discretely.

Finding a place in the home for CleaReader is easy. Its size means that it is easy to store on a suitable table or shelf.

CleaReader Accessories

CleaReader Travel Case

CleaReader Travel Case Take your CleaReader with you using this fantastic silver aluminium case. This light travel case is lined inside with foam to protect your CleaReader.

Audio Text Reader Trolley

This trolley is designed with rounded corners and it is easy to assemble. Plenty of surface space (45 x 55cm) is available for your Optelec Video Magnifier or reading machine, and the height of the trolley can be adjusted from 56 to 70cm

Additional Languages

Tieman UK supply each CleaReader with a UK-english naturally sounding speech synthesiser. This ensures that both documents and the menu system is easy to listen to.

Additional languages are also available, and can be added easily to your CleaReader prior to delivery. The following languages are available:

- French
- German
- Spanish
- Dutch
- Norwegian
- Finnish
- Swedish
- Danish

Ordering Additional Languages

When ordering, your CleaReader with an additional language, there are two options to consider:

Option 1: Documents only

This option is recommended for foreign language students, who wish to read documents which are not necessarily in english. Providing that you have ordered a CleaReader with your chosen additional language installed, simply press the middle button, from the set of controls situated on the right-hand side of the product. CleaReader will then read out documents using the additional language speech synthesiser.

Even when an additional language synthesiser is selected, the menu system will continue to be read using the english synthesiser.

Option 2: Documents and menus

This option is recommended for those who prefer to have both documents and the menu system announced in a foreign language.
