

# SLEEP TIGHT

*The sounds contained on the CD are copyright protected under the name Babycalmer*

*Below are some of the some mum's comments:*

The hairdrier followed by the vacuum cleaner soon had Lucy asleep. Playing the cd was much easier than running the hairdrier and vacuum cleaner for real, and took up less space in the nursery!

In the early days, the hair dryer sound on the CD was so incredibly helpful. I was absolutely amazed by how quickly my baby calmed down and settled when it was playing. She often fell asleep listening to it - it was a life saver!

*One mum's comment as relayed to me over the phone: -*

***"The heartbeat sound sent my baby to sleep"***

*I would like to thank my daughter who lives in Haywards Heath for her suggestion to produce the CD and the mum's in Hawards Heath who also gave the CD a thorough test and proved that it worked.*
